THE DISCOVERY OF THE MYSTICAL & SPIRITUAL REALITY OF THE ROARING FORK VALLEY OF COLORADO

In the past I have told the story of the Bahai discovery of the connection between the Valley of the Roaring Fork here in Colorado and the Nile River Valley of ancient Egypt. But not all of the story has been told nor understood. I now present current knowledge with added details.....

I was residing in Minneapolis, Minnesota in 1986 when synchronicity began to focus my attention on an area of the country that had never crossed my mind, not even for a brief passing thought.

I had learned many years before that synchronicity was the language of the Great Spirit. Always communicating with you if you but understood this concept. The famous psychologist & psychiatrist Carl Jung had done deep research on the concept of coincidence and had coined the word synchronicity. He pointed out that everything in the known universe follows laws, some so vast and big that us as humans might not feel these laws in action in our lives. For example; the planet Earth spins around the star we call the Sun at 67,000 miles per hour. Yet we don't "feel" this spinning because the law is so great and we so small that we cannot experience that specific law. Many other examples can be also presented.

I always ask the question : "Do you know the language of Swahili? " Generally the answer will be no. Then I say; " Does that mean that language doesn't exist?" Again the answer would be no. It would only mean that one does not " KNOW" that language.

The same would be true of synchronicity. It IS the language of the Great Spirit. Learn of it, pay attention to it and you will be guided all your life.

So it was in Minneapolis, where I was living at the time, once again that the Divine Language of Synchronicity was invading my life.

Newspaper articles, talks with varied people, radio and TV shows and News as well as evolving Bahai knowledge were all pointing my attention to ASPEN. I didn't know Aspen from a hole in the ground....so to speak. Why in heavens name was the Great Spirit directing my attention to a ski town of the rich and famous having anything to do with my complete purpose in life to bring about the Kingdom of Heaven on Earth and the Bahai Revelation and it's added New Song Teachings to my attention?

Well, when the Great Spirit speaks I have learned to listen. I began to investigate all that was coming my way.

First I got wind of Mainstream Bahai's planning 75th Anniversary events all over the U.S. pertaining to the 1912 visit by Abdul-Bahai, son of the Bahai founder and Davidic

King seated on the 3000 year old throne of the Israelite King David. Residing in Palestine of the Middle East, he had been asked to travel on the Titanic, turning down the offer to instead take the White Star shipping lines ship, RMS Cedric which was traveling across the Atlantic at about the same time as the Titanic.
Once in America Abdul-Baha taught, lectured, counseled morning, noon and night for 239 days with only one particular day where he decided to, 'take a rest'. Now it was well known he never did anything by accident. He always had a purpose in mind even in the smallest details of his actions. He took that 'REST' in Glenwood Springs, Colorado, a town at the confluence of the Roaring Fork River and the Colorado River. Investigating the word REST, I discovered that in world religious Holy Text when the word was used it implied that one's spirit was in total harmony with the Will of the Creator!
In doing further research I discovered interesting synchronicities about Abdul-Baha himself and the location of Glenwood Springs. He sat on the throne of King David and was a direct bloodline descendant from King Solomon. David had been known as ' The Lion of Judah'. What 'ROARED' was the Roaring Fork River, as was a 'LION'. In Biblical prophecy the descendants of King David were known as 'ROYAL BRANCHES'. And one specific'BRANCH' was indicated as a ' MOST GREAT BRANCH'. In fact, pertaining to that specific person the word 'BRANCH' in the Bible was the only fully capitalized word in the Bible! Another word for a 'FORK' in a river is a river 'BRANCH'! Because of what Bahai's know of prophecy we now knew this 'BRANCH' title referred specifically to Abdul-Baha. To add to all this, Abdul-Baha's father, Bahaullah stated that His Revelation He revealed in the latter half of the 1800's was a 'RED ROBED REVELATION REPRESENTING THE BLOOD OF ALL THE SPIRITUAL MARTYRS OF ALL THE RELIGIONS TO EVOLVE HUMANITY TOWARDS A KINGDOM OF HEAVEN ON EARTH'……"COLORADO": is the Spanish word for the color 'RED'.

Abdul-Baha's one day 'REST' day began to have significant meaning. 239 days in America and only one day was there a significant change.

From these investigations I spoke by phone with the Bahai leader who was known as a 'KNIGHT OF BAHAULLAH'. Several phone conversations took place between us, finally coming to the conclusion that for some reason we were being guided to move to the Roaring Fork Valley with Aspen at one end and Glenwood Springs at the other end of this 50 mile long valley.
So at a Bahai Conference in December of 1986, in Minneapolis, I announced for the first time that we were all being guided to move to ASPEN! And of course everyone thought I was nuts!
Within a month's time everything I was doing in Minneapolis changed. A ' closing of doors'...so to speak and an opening to move to Madison, Wisconsin where potential

students had been urging me to come to teach.
While teaching in Madison I met Laura Brooks. She studied the Bahai Revelation and The New Song Teachings. With all the students there I continued to discuss the idea of all of us moving to Aspen. And although crazy as it had sounded things began to happen . Several Bahai's and Bahai students traveled to Aspen to scout out the reality of the place. But none of us knew how we were all gonna move to that region with no real contacts or full understanding of the economic conditions there. It seemed far fetched. Then one day Laura was getting her hair done at a local beauty parlor in Madison. She was telling the story of what she was learning and how we were supposed to move to Aspen to the hairdresser. That same hairdresser had been doing the hair of a University of Wisconsin student. That student told the hairdresser her problem story about how her dad had recently died climbing a major mountain in the Roaring Fork Valley known as Mount Sopris. It's the only mountain in North America with two peaks of equal height. Both 12,953 feet each and a third ' false peak'. The dad had been taking the ashes of a good friend of his who had recently died to the top to scatter the ashes. The dad had a heart attack making the climb and died. A companion dog with him alerted some other climbers, but it was too late.
The dad had left a house in the valley to his daughter, the college student, but she was unable to take care of the place. The local county government advised her that if she didn't get the house in order it would be condemned.
So the hairdresser put the college student and Laura in touch with each other and...viollah.....we now had a house in the very valley we were being guided to move to! A deal was struck that was even more unlikely. We could occupy the house rent-free for years to come with only one two week period out of each year where she could come and stay by herself or with her friends!
So now Bahai's and Bahai students began to make the move to this house as a jumping off location and a base of operations to find jobs and other housing availability. In the course of a year people moved from Missoula, Montana, Minneapolis, Madison and several other places throughout the U.S. Over a couple of years over 100 people came to the valley and either stayed, stayed for a while, or simply visited as more housing became available to more of the Bahai's.
After teaching in Ann Arbor, Pittsburgh and Philadelphia, doing projects in Chicago, I finally also made the move to the valley on November 1st of 1987. That very evening the phone rang with a temporary job offer to begin the very next day. Two of us went. And by Thanksgiving that year I started a full time position at the premiere hotel in Aspen....The Hotel Jerome. That day I was in the kitchen when a room service call came in. No one else was around so I took the call. I was asked to deliver a tea service to the back of the hotel known as the Antler Room. When I got there lo and behold was the James Bond actress Jill St. John doing a photo shoot for her new Aspen cookbook. She proceeded to ask me to get in the shots and afterwards in walks actor and husband

Robert Wagner! We chatted about the skiing and the snow of that day. To me that was the most bizarre beginning of a job I would ever have, especially in a town full of the rich & famous!

In the months and years ahead other synchronicity type things would deliver an even bigger story about this valley. I didn't own a car, and for most of my life have been without one. One particular day I was hitchhiking from Aspen to Carbondale, a downvalley town. I got picked up by a guy for the whole way. We chatted and the topic turned to the unusual nature of the valley. Then he proceeded to tell me this story.....

He had been going back and forth between the Nile River Valley of Egypt and our valley for many years and kept having deja-vu like feelings. Finally he figured it out. He said both valleys were laid out in almost the same way. He explained.....

*Where Glenwood Springs is located it has the confluence of the Roaring Fork River and the Colorado River.

*That was equated with Alexandra, Egypt, where the Nile River meets the Mediterranean Sea.
*Go upriver in the Roaring Fork Valley and you come to the town of Carbondale with the 3 peaks of Mount Sopris. *That equates to Cairo and the 3 Great Pyramids.
* Upriver in our valley and you get the town of Basalt with nearby Rudi Reservoir. *That equates to Aswan and the Aswan Dam.
* Go upriver and you're at the connecting valley of Old Snowmass, with it's 3 holy sites, in 1987, of the Snowmass Monastery, John Denver's New Age site of Windstar and the Thinktank of The Rocky Mountain Institute. (R.M.I.)
* That equates to the holy centers of Thebes, Luxor and Karnak.
* Finally one went upriver on the Nile to ancient Nubia, where all the mining was done.
*That equated to Aspen and it's mining!

That was the story he told me. I was dumbfounded. Upon continued investigations more was revealed.....
Our valley here even has a 14,000 foot mountain called Pyramid Peak. There are 54 fourteen thousand foot peaks in Colorado. Only in our valley was one of them named PYRAMID!
In the middle of our valley is a town or area called El Jebel. It was named by a member of a Masonic Temple in the Denver region. El Jebel in Arabic translates as 'THE MOUNTAIN'. Similar to the Arabic name for Mt. Sinai in the Middle East. In Arabic

it's known as Jebel Musa. (also spelled Jabal) Means 'MOUNTAIN OF THE LORD or MOUNTAIN OF MOSES'.

Strange we would have an Arabic named area in our valley!

Next, because Abdul-Baha, having'RESTED' in Glenwood Springs at the beginning of our valley and being of the Davidic Throne as a King teaching the coming of the Kingdom of Heaven on Earth.....and the Roaring Fork being understood and translated as 'THE LION'S BRANCH'.....we finally realized Egypt and our valley had it's own....'VALLEY OF THE KINGS'

Anotherwords, this valley was indicated to be the place of residence of future Davidic Kings. A valley of the Kings.

Other Bahai's would continue the research of our unusual valley.....
Connecting to the valley was another valley called THE CRYSTAL RIVER VALLEY. It was discovered that passages in the Book of Revelation speaks of the 'CRYSTAL WATERS EMANATING FROM THE THRONE OF GOD'. This 'THRONE' is the 'DAVIDIC THRONE' promised by God in the Old Testament and spoken of by Jesus in the New Testament.

So this 'CRYSTAL RIVER VALLEY' looks directly to what's known as 'CHAIR MOUNTAIN'
Is this coincidence? Or synchronicity?????? Chair? Throne? In Holy Text 'WATER' is a reference to spiritual teachings or guidance.

To further enhance this bizarre connection we have in the Crystal River Valley the town of Marble. The Lincoln Memorial in Washington D.C. was constructed of marble from the town of Marble. President Lincoln issued his Emancipation Proclamation freeing the slaves in the Southern states which became law in 1863. That very same year on the opposite side of the planet Bahaullah announced Himself as the 'SECOND COMING OF CHRIST'.....annotherwords the reintroduction of the Davidic Throne and its Kings into the world scene.

Finally, further investigations revealed how the Roaring Fork Valley actually fulfills the ancient prophecy of the Buddhist' SHAMBALA'. (You can go to utube and type in SHAMBHALA AND THE 13TH CRYSTAL SKULL and see the video story of this aspect of Buddhist prophecy and our valley.)

So that was knowledge we had up to recently. Then one of the Bahai's out in the East Coast spotted something equally bizarre what would add to the understanding and

unusual location of our valley. It was discovered on the internet. And it went like this.....

Did You Know.....
*Ancient Egypt was divided by the Nile River, while the United States is divided by the Mississippi River.
*One third of the ancient Egyptian territory was east of the Nile and two thirds of it were west of the Nile.
*One third of the United States territory is east of the Mississippi and two thirds of it are west of the Mississippi.
* South from the middle of the Nile was a city named Memphis which was one of the capital's of ancient Egypt. This city was known for a prominent industry of cotton and flax. The fishing industry, as well as the paper industry were also prominent in Memphis.
* South from the middle of the Mississippi is a city named Memphis. This city was known for a prominent industry of cotton, flax and paper. (It also has a present day giant pyramid constructed along the bank of the Mississippi!) * The Nile River went through five major cities: Memphis, Theros, Luxor, Alexandria and Cairo.
* The Mississippi goes through five major cities: Memphis, Tennessee, Theros, Illinois, Luxora, Arkansas, Alexandria, Louisiana and Cairo, Illinois.

While it is true several cities in Illinois are named after major cities of the world, what are the odds of this? * Alexandria was the city at the delta of the Nile.
* Alexandria is the city just before the delta of the Mississippi.

That was the recent discovery.

Now in the last couple of weeks on utube, I discovered the giant reproduction of the Greek Parthenon which was originally located in Athens, Greece having been completely constructed in the city of Nashville, Tennessee.....including a giant 42 foot tall statue of the Greek goddess Athena gilded in gold inside this new temple!!!!!
* And if not to add to this bizarre structure being in America.....the Bahai King who sat on the Throne of David in the late 1950s,1960s and part of the 1970s designed a structure to house all the Sacred Bahai Writings and it turns out this structure is also a complete reproduction of the Greek Acropolis Temple....but without the goddess. This Bahai Archive Temple sits on Mount Carmel in Haifa, Israel along with the world headquarters of the Bahai's.

So now I see in my utube popups with this video of prophecies by a non-Bahai in the early 1900s! This famous woman, Ellen White pioneered the Christian movement of the Seventh-day Adventists.

Many religions and their believers throughout the world know there are mentionings of what modern believers suggest as a nuclear war. There in this video, this gentleman as he stands in front of this Nashville Temple, recites several of the visions Ellen saw. Her new religious movement was the result of Christian beliefs in the middle 1800s that the Second Coming of Christ would occur. They had used the Bible's numerical code to indicate 1844 as the year of the return. And in fact a John the Baptist type individual known in the Middle East as 'THE TWELFTH IMAM' did in fact appear in Persia in 1844 and began announcing the coming of the Christ. Today the Bahai Revelation considers that year of 1844 as the starting point of the Kingdom starting in the 'womb' of reality, with its eventual physical appearance in our time not far off.

Check out utube videos about the Bahai Gardens in Haifa to see the temple there, the Memphis pyramid history, the Nashville temple, and the Buddhist SHAMBHALA prophecy, and this video listed here..... Nashville Parthenon and Prophecy/Warnings Given Through Ellen White.

September, 2024 A.D. / Izzat, 181 B.E. A POSTSCRIPT TO THIS STORY:

I recall another interesting story while living in the valley. In the early 2000s of the 21st century of the Christian Era I was living in the town of Carbondale. One morning I decided to hitchhike upvalley to Aspen to do some errands . Made my way to the highway 82 & Hwy.133 intersection. Hwy.82 goes up and down the 50 mile long valley and would take me that day, with a ride, to Aspen. I had my thumb out hitching for a few minutes when two guys in a Landrover or Jeep type vehicle pulled over to give me a ride. (This was during the winter season.) I got in the back and they asked me where I was headed. I told them "ASPEN". They said "GREAT, we're headed there to go skiing".
I noticed an accent as they conversed, so I asked them where they were from. They said they were from back East, but they were Iranian. THAT!, perked up my interest and I mentioned to them that I was a Bahai (The Bahai Teachings began in Iran). Then the guy in the passenger seat turned and said he was the best friend of the great grandson of Abdul-Baha, son of the founder of the Bahai Religion! My mind was blown! What were the odds of THAT happening? It was synchronicity happening all over again!
We exchanged contact information and he gave me the great grandson's name, address & phone number. Him and I have been in contact ever since.
Very interesting how the Universe works when your intune with IT'S unfolding ……..
Then tell me how strange it all is…….

IN THE LIGHT OF THE SPIRIT, The Eagle of the East
